

DEKEL BONEH

Software and Information Systems Engineering student
at Ben-Gurion University

Strong academic performance with top grades in core subjects: Object-Oriented Software Development (93 - OOP focus), Advanced Programming Topics (90), Data Structures (92), and Information Systems Fundamentals (92). **Expected graduation: June 2027 (Enrolled in final year by September)**

INTERNATIONAL EXPERIENCE

Exchange Semester - Faculty of Computer Science, Universität Innsbruck, Austria

2025-2026

- Completed advanced coursework in Distributed Systems and Information Security & Privacy
- Adapted quickly to a new academic framework and international standards
- Operated in a multilingual environment - began learning German while maintaining fluent communication in English and Spanish
- Built international academic and professional connections

WORK EXPERIENCE

Software Developer at Dynamacs (2024)

Developed Python-based solutions as part of a student position at an early stage startup, focusing on robust backend logic and system interactions. Worked extensively with REST APIs and JSON data structures to ensure high-quality data processing.

Animated Video Creator at IT Department of Ben-Gurion University (2024 - 2025)

Developed technical animated tutorials for university course, effectively simplifying complex architectural concepts and distributed systems for the Moodle platform. Translated high-level software engineering methodologies into clear visual content, supporting the university's technical educational infrastructure.

QA Verification Engineer at Philips Health Systems (2020 - 2022)

Specialized in the verification of complex medical hardware-software systems, acting as a quality gatekeeper for system performance and GUI reliability. Collaborated with global engineering teams to identify and resolve critical system defects, ensuring uncompromised quality and technical alignment with complex system requirements

MILITARY SERVICE

Senior Field Technician, 8200 Intelligent Corps

2017 - 2019

Led high significance large scale projects while dealing with encrypted classified material on a daily basis. In addition, provided immediate solutions to real time field issues as we established several data transmission sites throughout the country while integrating different data transmission standards

LANGUAGES

- Hebrew : Native
- English: Fluent
- Spanish: Intermediate
- German: Basics

EXTRA - ACTIVITIES

COMPETITIVE FLOOR GYMNAST

2008 - 2019

Daily practice, intense athlete training and determination to succeed.

Summer Camp Counselor at The Jewish Agency, 2021
Pennsylvania, USA
