

DEKEL BONEH

Software and Information Systems Engineering student at Ben-Gurion University

Strong academic performance with top grades in core subjects: Object-Oriented Software Development (93), Advanced Programming Topics (90), Data Structures (92), and Information Systems Fundamentals (92).

INTERNATIONAL EXPERIENCE

Exchange Semester - Faculty of Computer Science, Universität Innsbruck, Austria

2025-2026

- Completed advanced coursework in Distributed Systems and Information Security & Privacy
- Adapted quickly to a new academic framework and international standards
- Operated in a multilingual environment - began learning German while maintaining fluent communication in English and Spanish
- Built international academic and professional connections

WORK EXPERIENCE

Software Developer at Dynamacs

2024

- Developed Python-based solutions as part of a student position at an early stage startup.
- Worked with REST APIs using Postman to send requests, validate responses, and debug issues, and processed JSON data into Python data structures.

Animated Video Creator at IT Department of Ben-Gurion University

2024 - 2025

- Developed animated tutorials for a new course on Clusters for the university's Moodle platform.
- Utilized Powtoon to transform complex technical concepts into engaging and clear visual content.

QA Verification Engineer at Philips Health Systems

2020 — 2022

- Self-learned the complex operation of a PET - CT and CT scanner.
- Worked with radioactive materials (Isotopes).
- Performed test execution, design & review of variety of fields such as Modes, GUI, Performance, etc.
- Built a strong relationship with global colleagues based in the US, China, Netherlands & India for optimal cooperation.
- Quality gatekeeper - Verified system tests and opened defects in alignment with customer requirements.
- Reduced the team knowledge gap by conveying technical material in an easy-to-understand matter via technical manuals.

MILITARY SERVICE

Senior Field Technician, 8200 Intelligent Corps

2017 - 2019

Led high significance large scale projects while dealing with encrypted classified material on a daily basis. In addition, provided immediate solutions to real time field issues as we established several data transmission sites throughout the country while integrating different data transmission standards

LANGUAGES

- Hebrew : Native
- English: Fluent
- Spanish: Intermediate
- German: Basics
